

Primary General (5-11)

Do you want to make a difference
to the lives of primary aged pupils?

TRAIN WITH THE BEST TO BE THE BEST

Primary and Secondary School Centred Initial Teacher Training

Could you inspire young people to enjoy and connect with a range of interesting subjects?

At Manchester Nexus, we believe every single pupil deserves access to an excellent primary teacher who will inspire them to love learning. We are looking for talented primary applicants, ideally with prior experience of engaging young people. Our coherent, immersive training programme will ensure you leave our course with the confidence to teach across the primary curriculum.

We are committed to training and developing the very best primary teachers who are willing to go the extra mile to invest in their pupils' academic and social development. In return, we will invest in your professional development beyond your Initial Teacher Training year, providing you with structured programmes which will ensure you have the skills and expertise to sustain a fulfilling and enjoyable career in teaching.

School Centred Initial Teacher Training - The Nexus Way

A career in Primary Teaching is incredibly rewarding; you get to work with children when they are at their most inquisitive and open minded. As well as having lots of fun, you have the honour and responsibility to set the young people in your care on a learning path which will determine their life chances later in life.

To be the best, you will need to rise to that challenge.
